**Rochester Lateral Project Open House**

We Energies is evaluating potential routes to provide southeast Wisconsin with an additional source of natural gas, and we would like to discuss our proposed project with you. Enclosed is an overview map of two possible routes that are being examined.

If we have not yet spoken to you about the project, please join us at an open house to learn more about the proposed Rochester Lateral Project. Stop by to talk with project team members about proposed routes, the permitting process and estimated timelines.

For your convenience, we scheduled three dates at different locations along the route.

Date and time	Location
Tuesday, March 5, 2024 2 to 7 p.m.	Raymond Village Hall 2255 76th Street Franksville, WI 53126
Thursday, March 7, 2024 2 to 7 p.m.	Michael's on the Lake 3101 Eagle Road Kansasville, WI 53139
Wednesday, March 13, 2024 2 to 7 p.m.	Caledonia Village Hall 5043 Chester Lane Racine WI, 53402

We anticipate filing our proposed plan with the Public Service Commission of Wisconsin (PSCW) in spring 2024. The PSCW is the state agency that determines the need and necessity for utility projects, including final route selection.

**Can't make it to the open house?**

For more information about the project, please call us at 877-380-0522.
