3 Mile Road reconstruction

- The 3 Mile Road reconstruction project from Douglas Avenue to LaSalle Street is scheduled to begin **Wednesday May 8th**.
- During construction, 3 Mile Road from Charles Street to LaSalle Street will be closed and 3 Mile Road from Douglas Avenue to Charles Street will only allow one-way traffic in the westbound direction.
- Because of one-way traffic staging, dump trucks will need to use 4 Mile Road to Charles Street to enter the quarry; they will use 3 Mile Road to exit the quarry.
- Traffic will be able to exit businesses on the south side of Three Mile Road near Douglas Avenue by traveling west. Westbound traffic from Charles Street will be able to enter businesses on Three Mile Road.
- The posted detour for eastbound traffic will be from Douglas Avenue to South Street to LaSalle Street, and the same route in reverse for westbound traffic.
- This reconstruction project is expected to last until this Fall. Once construction is complete, dump trucks will return to entering and exiting the quarry from 3 Mile Road.
