

Crawford Park Master Plan Project

The Village of Caledonia is undertaking a process of updating the long-range plan (Master Plan) for Crawford Park. Updating the master plan will allow the Village to evaluate the existing facilities and natural environment within the park to determine needs for maintenance and upkeep for the existing facilities, potential changes/upgrades to existing facilities, and possible new facilities to meet the changing recreational needs of Caledonia. If you would like her voice heard, click on the link and participate in a brief survey that will help the Village learn what residents would like to see in Crawford Park. <https://www.surveymonkey.com/r/B2WJCPW>
The survey closes on July 11th.
