

Wisconsin Department of Transportation

July 31, 2020

SUBJECT: Hoods Creek Road – Bridge Replacement

This letter is to serve as notification to the public that the Wisconsin Department of Transportation has issued a construction contract to **Concrete Structures Inc.** to Remove and Replace the Bridge over Hoods Creek on Hoods Creek Road in the Village of Caledonia.

The construction work is scheduled to begin on **Monday, August 10, 2020.**

At the start of the project the contractor will construct a temporary bypass bridge around the south side of the existing bridge. Once completed, the temporary bypass bridge will be used to allow vehicular traffic over Hoods Creek and around the existing bridge which will be demolished and replaced. The new bridge is expected to be accessible by **Friday, October 23, 2020** and landscape restorations to follow thereafter. The project is scheduled to be completed by **Friday, November 6, 2020.**

Please be mindful of the safety hazards around the construction project. Driving at a reduced speed near the bridge work will make it safer for workers and residents alike. If you need to navigate your way across the bridge on foot, please do so cautiously. Also, a construction project makes a very dangerous but attractive playground for children. Please warn them of the dangers and please keep them clear of the construction area.

Should you have any questions or concerns related to the project you may contact me by email or phone.

Thank you in advance for your patience and cooperation.

Jim Clements
Project Engineer
