SEC. 16-7-1 PURPOSE.

- (a) **Applicability.** This Chapter regulates all Signs in the Village of Caledonia that are readable/visible from the street right-of-way, public facilities, publicly owned or publicly managed trails and other recreation areas, and navigable waterways and Article IX of Chapter 20 of the Racine County Zoning Code entitled Signs shall no longer apply in the Village.
- (b) **Intent.** The Village of Caledonia has a tradition and reputation as a community with a rich mix of land uses that blend into a landscape of high aesthetic quality. Depending on their size, number, and character, Signs may attract or repel visitors, affect the visual quality enjoyed daily by residents, affect the safety of vehicular traffic, and define the character of the area. Thus aesthetic considerations impact economic values as well as public health, safety, and welfare. This Chapter sets standards for the following purposes:
- (1) Maintain and enhance the visual quality (aesthetics) of Signage and the community;
 - (2) Enhance the pedestrian environment and improve pedestrian and motorist safety by minimizing distractions and obstacles to directional or warning Signs, Signs pertinent to the Village's businesses, and clear views of the street;
 - (3) Protect and enhance economic viability;
 - (4) Protect property values and private/public investments in property;
 - (5) Protect views of the natural landscape and sky;
 - (6) Avoid personal injury and property damage from structurally unsafe Signs;
 - (7) Provide businesses with effective and efficient opportunities for advertising and identification;
 - (8) Create attractive gateways and enhance the image of the community; and

Inform the public of recreational opportunities, including for trails, within the Village.

Such facilities may also install one (1) Wall Sign, Awning or Canopy Sign, or Projecting Sign for each business in the building.

After approval of a master sign plan, no sign shall be erected, placed, painted, or maintained, except in conformance with such plan, and such plan may be enforced in the same way as any provision of this chapter. In cases of any conflict between the provision of such a plan and any other provision of this chapter, the chapter shall control.

LED signs shall not be allowed on other types of Signs. Digital signage with a changeable digital image may be allowed by the Village Board as a conditional use on Monument Signs and on a Freeway Sign so long as the changeable copy is static for at least fifteen minutes at a time and no more than 30% of the Sign Copy Area consists of the changeable digital image. - (9) Signs that are located in a vision corner or Vision Clearance Triangle unless

allowed as part of a conditional use permit or planned unit development by the Village Board, after review and recommendation by the Village Engineer and Village Plan Commission.

SEC. 16-7-4 EXISTING SIGNS.

- (a) Signs lawfully existing at the time of the adoption or amendment of this article may be continued, although the use, size, height, or location does not conform to the provisions of this Chapter. However, these Signs are deemed a nonconforming use or structure and the provisions of Section 20-186 et seq. of the Racine County Code of Ordinances apply.
- (b) A Sign loses its legal nonconforming status if the size, design, or structure of the Sign is altered in any way that makes the Sign less in compliance with requirements of this Chapter than it was before alteration.
- (c) Notwithstanding subsection 16-7-3(f), a zoning permit will be required for any structural alteration, addition, or repair to a legal nonconforming Sign.

SEC. 16-7-5 OBSOLETE SIGNS.

Upon vacating a commercial, industrial, agricultural, or institutional establishment, obsolete Signs must be removed within thirty (30) days by the owner, agent, or person having the beneficial use of the property, building, or structure upon which such Signs may be found. A Sign is obsolete for purposes of this Section when the advertised use, place or thing no longer exists at the site to which the Sign relates.

SEC. 16-7-6 ADMINISTRATION.

- (a) **Administrator.** This Chapter shall be administrated by the Village's Zoning Administrator, in consultation with the Village Engineer as indicated. Approval shall be by the Zoning Administrator unless otherwise specified. Sign administration in the Village of Caledonia is intended to provide clear instruction on the type of Signs in each zoning district and land use classifications, and whether specific Sign types are (a) allowed, (b) require a permit, or (c) do not require a permit. Detailed regulations regarding the size and style of Signs are set forth in Sections 16-7-7 through 16-7-9.
- (b) **Signs for which no permit is required.** A permit shall not be required for the following Signs:
 - (1) Nameplates not over two (2) square feet in area, provided the same is limited to one (1) for each premises, tenant, or family and the same is located at least five (5) feet from the outer limits of the street right-of-way and lot lines;
 - (2) Real Estate Signs meeting the requirements of Section 16-7-9(d)(5);
 - (3) Private Property Signs meeting the requirements of 16-7-9(a)(7);
 - (4) Property address markers assigned by the Village or Racine County and of a design approved by the Village;
 - (5) Tablets, grave markers, headstones, statuary, or monuments of persons or events

- that are noncommercial in nature;
 - (6) Temporary Signs meeting the requirements of Section 16-7-9(d)(2, 3 and 4); and

- (c) **Signage Charts.** The Village signage charts, incorporated herein by reference below, illustrate the permissible types of Signage in each land use classification. The charts are structured to reflect these associations and to determine the type of Signage for the planned land use classifications as specified in the Village's Land Use Plan. Zoning and the Land Use Plan classifications shall be used when reviewing and approving Signage in the Village. In all cases, consistency with the Land Use Plan classifications shall be a primary determinant of the recommendations and decisions made by the Village. However, this Chapter allows Signage for existing land uses (at the time of adoption), that match the existing zoning (at the time of adoption) even though the use may not match the land use classification for the subject parcel, unless otherwise restricted by Village Ordinance. In addition, this Chapter allows for Signage that is made nonconforming after adoption of this ordinance to be maintained in accordance with Sec. 16-7-4.

These guidelines are available from the Village Clerk.
- (e) **Sign Permit Application.** In addition to the requirements of Section 20-81 of the Racine County Code of Ordinances, a zoning permit application for a Sign must be submitted to the Village Zoning Administrator on forms provided by the Zoning Administrator for review and approval. The zoning permit application must contain or have attached thereto at least the following information:
- (1) Applicant's name, address, and telephone number.
 - (2) Location of building, structure, or lot to which or upon which the Sign is to be located.
 - (3) Type of Sign applicant wishes to erect.
 - (4) Zoning district and Land Use Classification from the Village's Land Use Plan in which the Sign will be erected.

 - (6) Written consent of the owner or lessee of the building, structure, or land to or upon which the Sign is to be located. Owner or lessee's Signature on the zoning permit application is considered written consent. The Signature of an owner's representative or agent is acceptable provided a letter of agency is on file with the Village.
 - (7) A drawing of such Sign indicating the materials to be used, the type of illumination, if any, and the method of construction and attachment. Said drawing must be drawn at a scale no smaller than one-tenth (1/10) inch equals one (1) foot or dimensions must be shown on the drawing.
 - (8) A drawing indicating the location and position of such Sign in relation to parcel boundary lines, nearby buildings and structures. Said drawing must include the Sign's height above finished yard grade. Said drawing must be at a scale no smaller than one (1) inch equals fifty (50) feet or dimensions must be shown on the drawing.
 - (9) Signs requiring state or federal approval must provide a copy of such approval with the Sign permit application.
 - (10) Additional information as may be required by the Zoning Administrator, the Village Planning Commission, Village Board or the Village Board of Appeals.
 - (11) For all Signs in excess of thirty-two (32) square feet, a photograph with the proposed Sign included in a digital representation that shows the Sign from a distance of 150 to 300 feet.
 - (12) All Submittals for a master sign plan under a conditional use or planned unit development shall also include the type, construction, location and height of each proposed sign. Approval of the master sign plan is required before issuance of the first sign permit for the property. After approval of a master sign plan, no sign shall be erected, placed, painted, or maintained, except in conformance with such plan, and such plan may be enforced in the same way as any provision of this Chapter.

SEC. 16-7-7 CONSTRUCTION AND MAINTENANCE STANDARDS.

- (a) All Signs must be designed and constructed to withstand wind pressure of not less than forty (40) pounds per square foot of area and must be constructed to receive dead loads as required by the Village.
- (b) The temporary occupancy of a sidewalk or street or other public property during construction, removal, repair, alteration, or maintenance of a Sign is permitted subject to the approval of the jurisdictional authority, provided that the space occupied is roped off, fenced off, or otherwise isolated as directed by said authority.
- (c) The owner of any Sign must keep it in good maintenance and repair which includes restoring, repainting, or replacing a worn or damaged Sign to its original condition; and must maintain the immediate premises on which the Sign is erected in a clean sanitary, and inoffensive condition, free and clear of all obnoxious substances, rubbish, weeds, and grass.
- (d) No Sign or any part thereof or Sign anchor, brace, or guide rod may be attached, fastened, or anchored to any fire escape, fire ladder, or standpipe and no such Sign or any part of any such Sign or any anchor, brace, or guide rod may be erected, put up, relocated, or maintained so as to hinder or prevent ingress or egress through such door, doorway, fire escape, window, or opening designated by the local fire department, or so as to hinder or prevent the raising or placing of ladders against such building by the local fire department as necessity may require.
- (e) Upon request of the Zoning Administrator, it is the responsibility of the applicant to establish by competent evidence that the Sign meets any above stated standards or requirement.

16-7-8 MEASURING SIGNS.

- (a) In calculating the area of a Sign to determine whether it meets the requirements of this chapter, the Zoning Administrator must include the Sign copy and any border or frame surrounding that copy. Customary supporting members of a Sign will be excluded from the area calculation. The area of irregularly-shaped Signs or of Signs containing two (2) or more detached elements will be determined by the area of the smallest circle, square, triangle, rectangle, or combination thereof, that will encompass all elements of the Sign. Where individual letters, words, emblems, symbols, etc. are affixed to a building, a rectangle around the entire phrase or sentence will be measured to compute Sign area. Where the Sign background is made a different color from the building such as by painting, the area of different color will be measured. Back-to-back, side-by-side, bottom-on-top, and V-shaped Signs constitute one (1) Sign within the meaning of this article.
- (b) The Sign height shall be computed as the distance from the base of the Sign or structure to which it is attached at normal grade to the top of the highest attached component of the Sign. Normal grade shall be construed to be the lower of: (1) Existing grade prior to construction; or (2) The newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of elevating the Sign. In cases in which the normal grade cannot reasonably be determined, Sign height shall be computed on the assumption that the elevation of the normal grade at the base of the Sign is equal to the elevation of the nearest point of the crown of a street or the grade of the principal

- pedestrian entrance to the principal structure on the site, whichever is lower.
- (c) For Monument Signs, the structural elements and artistic elements without any advertising language or identification on them shall not exceed one hundred (100) square feet in area for each Sign face and are excluded from the square footage calculation for the Monument Sign. Such structural and artistic elements may exceed one hundred (100) square feet if approved through a site plan review by the Village Board upon review and recommendation by the Village Plan Commission Alternatively, such elements in excess of one hundred (100) square feet may be included as part of the total base of such Monument Signs, thereby reducing the available area.
 - (d) Spherical, free-form, sculptural, or other non-planar Sign area is fifty (50) percent of the sum of the areas using only the four (4) vertical sides of the smallest four-sided polyhedron that will encompass the Sign structure. Signs with more than four (4) faces are prohibited.

16-7-9 REQUIREMENTS.

The following requirements apply based on type of Sign and may be modified only by approval of the Village Board under a master sign plan under a conditional use permit or planned unit development upon review and recommendation by the Zoning Administrator, the Village Engineer and the Village Plan Commission. A submittal for a master sign plan shall include the additional information specified under Section 16-7-6(d)(12).

(a) **Freestanding Signs.**

- (1) **Agricultural Signs.** Agriculture Signs may not exceed twenty-four (24) square feet on one side and forty-eight (48) square feet on all sides. Agriculture Signs are limited to one Sign for any one farm. Such Signs must be located at least 10 feet from the outer limits of the street right-of-way, and may not exceed six (6) feet in height. If the Sign is located within the Village Center, Mixed-Use Arterial, or Business Campus, it may be located within one (1) foot of the property line if the location does not interfere with vision clearance triangles or pedestrian amenities (i.e. sidewalks).
- (2) **Directional Signs.** Directional Signs, including internal Public Trail Signs and Private Trail Signs, may not exceed twelve (12) square feet on one side and twenty-four (24) square feet on all sides, nor may such Signs be greater than five (5) feet in height. Directional Signs shall not be less than ten (10) feet from any property line or outer limits of the street right-of-way except Public Trail Signs and Private Trail Signs, if approved by the Village Administrator or Village Engineer when visibility of the Sign is frustrated by this requirement and in such case the placement of the sign shall be in a manner that does not create an obstacle for the right-of-way and does not interfere with drainage ways, plowing and snow plowing.
