

#### VILLAGE OF CALEDONIA UTILITY DISTRICT

NOTICE IS HEREBY GIVEN THAT the Commissioners of the Caledonia Utility District will meet on Wednesday, September 2, 2020, at 6:00 p.m. at the Caledonia Village Hall located at 5043 Chester Lane, Racine, Wisconsin for the purpose of the following:

- 1. Meeting Called to Order
- 2. Roll Call
- 3. Approval of Minutes
  - a. Utility District Regular Meeting August 5, 2020
- 4. Citizen Comments
- 5. Communications and Announcements
  - a. Racine Water Utility Agenda & Minutes
  - b. Racine Wastewater Utility Agenda & Minutes
- 6. Approval of O&M Bills
  - a. O&M Bills related to the Sewer Utility District
  - **b.** O&M Bills related to the Water Utility District
  - c. O&M Bills related to the Storm Water Utility District
- 7. Project Updates
  - a. Construction Contract Status
  - b. Caddy Vista Improvements / Lift Station
  - c. Riverbend Drive Lift Station Safety Site
  - d. Lighthouse Drive Lift Station Upgrade Sitee. South Lane Sanitary Sewer

  - f. Rio Vista, Shorewood & Stonebridge Utility Improvements
  - g. DeBack Industrial Park Phase 3 Improvements
  - h. Annual Televising Program Sanitary Sewer
  - i. Water Impact Fee / Sewer Connection Fee Update
  - j. EPA Risk & Resilience Assessment and Emergency Response Plan
  - k. Hoods Creek Aldebaran Brushing Project
  - 1. Tanglewood Avenue Storm Sewer Replacement Project
  - m. Wind Point West Subdivision Project
  - n. GIS Updates
  - o. Alcyn Drive
  - p. Douglas Avenue OMG Ditch Project
- 8. Action Items
  - a. August 10, 2020 Rainfall Event
  - b. Change Order #2 Wind Dale & Wind Point West Storm Water Improvements Project
  - c. Alcyn Drive Project Update
- 9. Adjournment

Dated this August 28, 2020

Only committee members are expected to attend. However, attendance by all Board members (including non-members of the committee) is permitted. No action will be taken by those members.

DRAFT

- 1. Meeting Called to Order The Regular Meeting of the Village of Caledonia Utility District was held on Wednesday, August 5, 2020, at the Caledonia Village Hall, located at 5043 Chester Lane Racine, Wisconsin. The meeting was called to order by President Howard Stacey at 6:00 pm.
- **2.** Roll Call Those present were President Howard Stacey, Commissioners Michael Pirk, Dave Ruffalo, Tony Minto, Mark Brigman and Trustee Lee Wishau. Commissioner Sullivan was excused. Also present were Village President Jim Dobbs, Brian Della of PMA, Capital Finance Officer Dave Wagner, Utility Manager Robert Lui, and Utility Director Anthony Bunkelman.

#### 3. Approval of Minutes

- **a.** Upon a motion by Pirk and seconded by Minto, the Commission approved the minutes from the Utility District's previous regular meeting held July 1, 2020. A copy of these minutes have been furnished to each Commissioner. **Motion Carried.**
- 4. Citizen Comments None

#### 5. Communications and Announcements

#### a. Racine Water Utility Agenda & Minutes

The Commission looked over the June 16<sup>th</sup> Minutes and the July 21<sup>st</sup> Agenda for the Racine Water Utility.

## b. Racine Wastewater Utility Agenda & Minutes

The Commission looked over the June 16<sup>th</sup> Minutes, and the July 21<sup>st</sup> & July 28<sup>th</sup> Agendas for the Racine Wastewater Utility.

#### 6. Approval of O&M Bills

- **a.** Upon a motion by Wishau and seconded by Brigman, the Commission approved payment of O&M Bills, related to the Sewer Utility District totaling \$828,938.07. **Motion Carried.**
- **b.** Upon a motion by Wishau and seconded by Minto, the Commission approved payment of O&M Bills, related to the Water Utility District totaling \$518,576.50. **Motion Carried.**
- c. Upon a motion by Wishau and seconded by Brigman, the Commission approved payment of O&M Bills related to the Storm Water Utility District totaling \$487,282.74. **Motion Carried.**

#### 7. Project Updates

#### a. Construction Contract Status

The current contract statuses were shared with the Commissioners.

#### b. Caddy Vista Improvements / Lift Station

Project near completed. Awaiting final Pay Request.

#### c. Riverbend Drive Lift Station Safety Site

Design of project has restarted due to Sewer Capacity Issues.

#### d. Lighthouse Drive Lift Station Upgrade Site

Project near completion. We Energies will be performing the electric switch over on Friday August 7<sup>th</sup>.

#### e. South Lane Sanitary Sewer

Met onsite with Reesman's on July 31st. Discussed trees that needed to be trimmed. Tree work to begin on Tuesday August 4th. Pipe work to begin around August 10<sup>th</sup>.

#### f. Rio Vista Shorewood & Stonebridge Utility Improvements

Contractor started Rio Vista and Shorewood project on July 13<sup>th</sup>. Progress has been good. Watermain nearly all installed. Projected to completed pipe work in the next couple of days. Will then move on to testing. Stonebridge portion to start on August 17<sup>th</sup>.

### g. DeBack Industrial Park Phase 3 Improvements

Information has been sent to the owners and the Special Assessment meeting will be held when the Village Hall can host larger public meetings.

#### h. Annual Televising Program - Sanitary Sewer

Progress continues on televising of this years scheduled televising.

#### i. Water Impact Fee / Sewer Connection Fee Update

The sewer capacity issues have changed the CIP for the Sewer Utility and will change the information on the Connection Fee. Update to come soon.

## j. EPA Risk & Resilience Assessment and Emergency Response Plan

Work to start in December 2020.

#### k. Hoods Creek – Aldebaran Brushing Project

Awaiting dry weather and will reassess the needs of the Hoods Creek along the Aldebaran Subdivision.

#### l. Tanglewood Avenue Storm Sewer Replacement Project

All storm sewer pipe work is completed. Visu-Sewer will be lining Storm Sewer run next week. Discovered hydrant that does not have a valve. Will be adding a hydrant valve the week of August 3<sup>rd</sup>. Restoration and Paving to start soon.

#### m. Wind Point West Subdivision Project

Project underway. Reesman's anticipate having the storm sewer complete by August 7<sup>th</sup>. Restoration crews have been working closely behind. Restoration on several areas has already been completed.

#### n. GIS Updates

Project has been worked on as time allows. Will be updating servers when information is received.

#### o. Jolson Street - Franksville Area Drainage

Tile Relay installed on June 30<sup>th</sup> and July 1<sup>st</sup>. Restoration completed the week of July 20<sup>th</sup>.

#### p. Alcyn Drive - Drainage Complaint

Finish AutoCAD, QA/QC on gas main/laterals and then share with owners.

#### q. Douglas Avenue – OMG Ditch Project

Met with owner to go over plans. Answered several of his questions and reached out to Foth on some changes that he would like to see. Working on revised plans then will schedule another meeting with both owners to make sure everything is covered.

#### 8. Action Items

## a. Resolution 2020-01 – Approve the 2019 Compliance Maintenance Annual Report (CMAR)

Director Bunkelman indicated that this Resolution is needed to file the CMAR with the Department of Natural Resources. The Caledonia Utility District had a grade of A for 2019.

Upon a motion by Minto and seconded by Wishau, the Commission moved to approve Resolution 2020-01. **Motion Carried.** 

## b. Wind Dale & Wind Point West Storm Water Utility Improvements – Change Order #1

Director Bunkelman indicated that a Change Order was needed for the Wind Point West portion of the project for the water laterals. 2 bid items would be added to the contract for water lateral offsets. To date there are 22 offsets that have been performed. The cost of this change order for the offsets is \$53,691.00 which is 3.4% of the overall contract.

Upon a motion by Minto and seconded by Brigman, the Commission moved to approve Change Order #1 to add the additional line items for water lateral offsets for the Wind Dale & Wind Point West Storm Water Utility Improvements Project. **Motion Carried.** 

DRAFT

# c. Central Storage Warehouse – CSW Addition – Driveway Encroachment on Storm Sewer & Watermain Easement Variance Request

Director Bunkelman shared that in early discussions with CSW and JSD that in order to make the project viable the building addition would need to have 8 loading docks. In order to make the building fit within the setbacks they could only place 7 docks on the West side of the building and proposed 1 dock on the East side of the addition. This pushes the driveway access from Road B into the Storm Sewer & Watermain Easement. It is not anticipated that the driveway encroachment will conflict with the Easement. Watermain is not installed at this time and an additional Watermain Easement is being discussed with WisPark. The Storm Sewer has been required to be extended to the South so the slope off the drive is acceptable. It is recommended that the variance be approved with the condition of the Village Board approving the encroachment and an agreement be entered into for the Driveway encroachment.

Upon a motion by Wishau and seconded by Pirk, the Commission moved to approve a driveway encroachment in the Storm Sewer & Watermain Easement for Central Storage Warehouse – CSW Addition subject to the Village Board approving the driveway encroachment and Central Storage Warehouse entering into a Driveway Encroachment Agreement with the Caledonia Utility District and the Village of Caledonia. **Motion Carried.** 

#### d. Central Storage Warehouse – CSW Addition – Site Grading Plan Conditional Approval

Director Bunkelman indicated that the site plan was reviewed and was ready for conditional approval. Due to the driveway being moved in the easement and the grading work that results on the abutting property. It is recommended as a condition of approval that CSW obtain written permission from WisPark for performing work on their property.

Upon a motion by Minto and seconded by Brigman, the Commission moved to approve the Site Grading Plan for Central Storage Warehouse – CSW Addition subject to the Utility Director's July 30<sup>th</sup> Memo. **Motion Carried.** 

# e. Northterra Management Group – True North Commons – Storm Water Management Plan and Site Grading & Drainage Plan Conditional Approval

Upon a motion by Minto and seconded by Brigman, the Commission moved to conditionally approve the Storm Water Management Plan and Site Grading Plan for Northterra Management Group – True North Commons subject to the Utility Director's July 30<sup>th</sup> Memo. **Motion Carried.** 

#### f. Recommendation for Sewer Rate Increase – 4th Quarter 2020

Director Bunkelman gave a brief introduction on the Capital Improvement Plan then Dave Wagner and Brian Della gave a presentation to the Commission entitled Capital Improvement Plan Overview and Rate Setting Considerations. The Capital Improvement Plan is approximately \$37 Million dollars and the Mount Pleasant TID #5 Conveyance Contribution is \$27 Million dollars. To cover all the costs the Sewer Rate would need to increase approximately 61% over the next 6 years approximately 10% per year. It has been proposed to increase the rate 11.1% from \$126 to \$140 for the 4<sup>th</sup> Quarter.

Upon a motion by Wishau and seconded by Brigman, the Commission moved to recommend that the Village Board adopt a Resolution to raise the Sewer Rate \$14.00 (11.1%) starting the  $4^{th}$  Quarter of 2020. **Motion Carried.** 5-1, **Minto opposed.** 

#### g. Racine Sewer Agreement - Sanitary Sewer Capacity

Director Bunkelman presented the following. Currently the Village receives Sanitary Sewer Service from the Racine Wastewater Utility through an Intergovernmental Agreement (Racine Sewer Agreement). The Village of Caledonia is considered a Sewer Service Recipient (SSR) in the Racine Sewer Agreement. As part of the Agreement, Caledonia is allocated a certain amount of Sewer Capacity. Also, in the agreement, there are 3 triggers for utilizing Sewer Capacity, based on how much is utilized. The trigger information from the Sewer Agreement was included in the packet.

On May 17<sup>th</sup> of this year, the region experienced a high intensity rain event. The area received anywhere from 4" to 5" depending on location, in just a few hours. These high intensity rain events cause flooding problems with Storm Sewer and infiltration and inflow problems with Sanitary Sewer facilities. In this storm event, the Utility utilized all its assets and managed to get through the event. We had numerous high alarms, several plugged pumps that required immediate repair, and filled the attenuation basin in a few hours. Luckily, we had no reported basement backups. In most situations this is quite the feat. Unfortunately, just a few weeks later, the Village/Utility received a letter from Keith Haas of the Racine Wastewater Utility informing Caledonia that there were several exceedances. Caledonia had Peak Day, Peak Hour and Point of Entry Exceedances. Per the attached information from Mike Gitter from Racine Wastewater, Caledonia had 124.5% exceedance on Peak Day, 101.7% exceedance on Peak Hour and 104.9%(Central) & 109.2%(Riverbend) exceedances for Point of Entry.

According to the Racine Sewer Agreement, an exceedance of this magnitude (exceeding 95% and 100%) would constitute a sewer moratorium. Based on the exceedances at the connection points we would have a full Village Sewer Moratorium (We might be able to argue about the Highway V & K connection point). When this letter was received, Keith Haas was contacted to find out if the Village was indeed under a sewer moratorium. He discussed that it is a self-imposed moratorium and that

DRAFT

Caledonia should prepare a response to the Racine Wastewater Commission on what Caledonia is going to do moving forward to mitigate flows. Some ideas that were discussed were safety sites at Riverbend and Central and bypass pumping to stay within the contract limits. Since that meeting, we have been evaluating our lift stations, the contract limits and operations of the various pumps to see if this is something that we can physically perform.

As requested by Keith and ultimately by the Sewer Agreement, a response letter was prepared which explained what Caledonia was going to do to mitigate flows. That response letter, which is dated July 9<sup>th</sup> was in the packet. The very same day the response letter was forwarded to Keith Haas, a second-high intensity rain event occurred. This event was a little less intensive than the May event, but still dropped anywhere from 3" to 4" of rain over the region. Unfortunately, within a few days, we were informed (via email) that Caledonia again had exceedances. An 80.1% on Peak Day, 101.3% and 105% on Peak Hour and 113.2% (Central) & 105.9% (Riverbend) exceedances for Point of Entry. A formal letter will be provided soon.

When this second event occurred and the exceedance information was given, knowing that several of the improvements needed to mitigate the flows (2 Additional Cells (3 MGD) at the Hoods Creek Attenuation Basin and the construction of the Central Attenuation Basin (2.5 MGD)) cannot be constructed for 1 to 2 years, we began to focus on what we can do in the interim to stay out of a Sewer Moratorium and not halt development.

First, we had to find out if the Racine Wastewater Commission was going to enforce the Sewer Moratorium. Our response letter was placed on the July 21<sup>st</sup> agenda for the Racine Wastewater Utility Meeting, then deferred to a special July 28<sup>th</sup> Racine Wastewater Utility Meeting. At the July 28<sup>th</sup> meeting, the Racine Wastewater Utility discussed the rain event that the entire region experienced, discussing that Caledonia, Mount Pleasant and Racine all had exceedances that would constitute Sewer Moratoriums. They also discussed that Caledonia's response letter had a defined plan on what Caledonia was proposing to do to mitigate flows. Ultimately on a split vote, the Racine Wastewater Utility approved Caledonia's response letter as an acceptable plan to mitigate flows. Our interpretation of this approval by the Racine Wastewater Utility is that Caledonia is not under a Sewer Moratorium. Although, it is not anticipated that Caledonia will be able to obtain this approval again, especially if there is another exceedance in the future and prior to the major improvements listed above.

In addition, we began reviewing the pumps in the stations, seeing what they can pump versus the various capacity triggers. Based on the limited testing we performed, it appears that the pumps at Central can far exceed the capacity limits. We will be performing similar tests at Riverbend, but it is anticipated that the same situation will be there as well. Spreadsheets were created that identify the various flows that would create an exceedance. Spreadsheets were also created that provide maximum pumping flows based on multiple combinations of Peak Hour Flow and Peak Day Flow to prevent an exceedance from occurring. Since those were created, we have been

discussing ideas and formulating a strategy of what can be done. We are aware at this time, that due to the pump starter at Central, any changes in the number of pumps running will need to be done manually. We are exploring the costs for control panel changes to have the 3 large pumps have individual starters instead of 1 starter. We also are anticipating that we will need to have personnel onsite during an event to monitor the levels in the wet wells so that we do not back up into any basements. While we are taking these steps to prevent an exceedance, we will do everything in our power, utilizing all our assets to prevent an exceedance and protect the residents from basement backups. If it comes down to protecting basements or having an exceedance, we will protect the basements. In the interim, we cannot guarantee that Caledonia will not have an exceedance or a Sewer Moratorium prior to major infrastructure improvements being in place.

The Commission and Village President Dobbs discussed multiple ideas and items related to reducing I & I.

#### 9. Adjournment

Upon a motion by Minto and seconded by Wishau, the Commission moved to adjourn the regular meeting at 8:24 pm. **Motion Carried.** 

Respectively submitted, Anthony A. Bunkelman P.E. Utility Director

City Hall 730 Washington Ave. Racine, WI 53403 www.cityofracine.org

## **Meeting Minutes – Final**

#### **Waterworks Commission**

Tuesday, July 21, 2020

4:00 PM

City Hall Annex, Room 227

Roll Call

PRESENT: 5 - Kathy DeMatthew, Thomas Bunker, Natalia Taft, Cory Mason and John Tate II

**EXCUSED:** 2 - Terry McCarthy, James Spangenberg

Approval of Minutes for the June 2020 Meeting

A motion was made by Bunker, seconded by Secretary DeMatthew, that this file be

to Approve the Minutes

0463-20 Subject: Budget Expenditures for May totaling \$ 1,719,234.23

Recommendation: Approve

A motion was made by Secretary DeMatthew, seconded by Bunker, that this file be

**Approved** 

0459-20 Subject: Presentation from Ruekert-Mielke to the Commission explaining

the 2020 Water Rate Application to the PSC

Recommendation: Receive and File

Presentation given by Mr. Ed Maxwell from Ruekert & Mielke regarding the rate case.

A motion was made by Bunker, seconded by Secretary DeMatthew, that this file be

Received and Filed

0405-20 Subject: Communication from General Manager providing interim

financing for the Water Utility to be able to replace water main on the

state Highway 20 (Washington Avenue) ahead of a Wisconsin

Department of Transportation construction project.

Recommendation: Receive and File

This item had been a direct referral to Common Council under item 0404-20 and approved. The General Manager explained to the Commissioners this funding

mechanism can be exercised if funding shortfalls exist.

A motion was made by Mayor Mason, seconded by Vice President Tate II, that this

file be Received and Filed

0390-20 Subject: Bid Opening Results on Contract W-20-9, Washington Avenue

City Hall 730 Washington Ave. Racine, WI 53403 www.cityofracine.org

## **Meeting Minutes – Final**

This item had been a direct referral to Common Council under item 0404-20 and approved. The General Manager explained to the Commissioners this funding mechanism can be

exercised if funding shortfalls exist.

A motion was made by Mayor Mason, seconded by Vice President Tate II, that this

file be Received and Filed

**Subject:** Bid Opening Results on Contract W-20-9, Washington Avenue

#### Water Main Replacement

#### **Recommendation:** Approve

The Chief of Operations submitted the bid results on Contract W-20-9, in the amount of \$2,446,600.00 and recommended approval to the lowest responsible bidder, that being Globe Contractors, Inc.

A motion was made by Secretary DeMatthew, seconded by Bunker, that this file be **Approved** 

0351-20

Subject: Change Order No. 2 on Contract W-18-7, International Drive Water Main, A.W. Oakes & Son, Inc. (Contractor)

#### **Recommendation:** Approve

The Chief of Operations submitted Change Order No. 2 on Contract W-18-7 for a credit amount of \$12,700.18, bringing the total contract amount to \$1,446,811.82 and recommended for approval.

A motion was made by Bunker, seconded by President Taft, that this Communication be Approved. The motion PASSED by the following vote:

AYES: 4 - Bunker

Taft Mason Tate II

EXCUSED: 2 - McCarthy

Spangenberg

ABSTENTIONS: 1 - DeMatthew

0397-20

Subject: Change Order No. 2 on Contract W-19-7, Spring Street Transmission Water Main, S.J. Louis Construction (Contractor)

#### **Recommendation:** Approve

The Chief of Operations submitted Change Order No. 2 on Contract W-19-7 in the amount of \$485,865.65, bringing the total contract amount to \$6,331,465.65 and recommended for approval.

A motion was made by Mayor Mason, seconded by Secretary DeMatthew, that this file be Approved

0420-20

Subject: Change Order No. 1 on Contract W-19-11, 48" Perry to Newman Transmission Water Main, S.J. Louis Construction (Contractor)

#### **Recommendation:** Approve

The Chief of Operations submitted Change Order No. 1 on Contract W-19-11 in the amount of \$91,200.00, bringing the total contract amount to \$14,325,200.00 and recommended for approval.

A motion was made by Mayor Mason, seconded by Secretary DeMatthew, that

this file be Approved

0462-20

**Subject:** Change Order No. 2 on Contract W-19-11, 48" Perry to Newman Transmission Water Main, S.J. Louis Construction (Contractor)

**Recommendation:** Approve

The Chief of Operations submitted Change Order No. 2 on Contract W-19-11 in the amount of \$17,491.50, bringing the total contract amount to \$14,342,691.50 and recommended for approval.

A motion was made by Mayor Mason, seconded by Secretary DeMatthew, that this file be Approved

0461-20

**Subject:** Change Order No. 3 on Contract W-19-12, Summit Elevated Storage Tank Pump Station, Staab Construction Corporation (Contractor)

**Recommendation:** Approve

The Chief of Operations submitted Change Order No. 3 on Contract W-19-12 a credit in the amount of \$44,764.00, bringing the total contract amount to \$1,180,150.97 and recommended for approval.

A motion was made by Mayor Mason, seconded by Secretary DeMatthew, that this file be Approved

0460-20

**Subject**: Change Order No. 2 on Contract W-19-16, 42" Transmission Water Main - Phase 1, Dorner, Inc. (Contractor)

**Recommendation:** Approve

The Chief of Operations submitted Change Order No. 2 on Contract W-19-16 in the amount of \$146,230.99, bringing the total contract amount to \$2,620,975.12 and recommended for approval.

A motion was made by Mayor Mason, seconded by Vice President Tate II, that this file be Approved

0444-20

**Subject:** Change Order No. 1 on Contract W-20-2, Transmission Water Main to Broadway Tank and CTH H Phase 2 Hydrant Alterations

Recommendation: Receive and File

A motion was made by Mayor Mason, seconded by Vice President Tate II, that this file be Received and Filed

0419-20

**Subject:** Final Pay Request on Contract W-18-7, International Drive Water Main

**Recommendation:** Approve

The Chief of Operations submitted final pay request on Contract W-18-7. He recommended that the work performed by A.W. Oakes, Inc. (Contractor) be accepted

and final payment be authorized for a total contract amount of \$1,446,811,82.

A motion was made by Bunker, seconded by Vice President Tate II, that this Communication be Approved. The motion PASSED by the following vote:

AYES: 4 - Bunker

Taft Mason Tate II

EXCUSED: 2 - McCarthy

Spangenberg

ABSTENTIONS: 1 - DeMatthew

**Subject:** Proposal from Dixon Engineering to prepare plans and

specifications for the Perry Tank roof replacement project

Recommendation: Approve

The Chief of Operations submitted a proposal in the amount of \$46,750.00 from Dixon Engineering to prepare plans and specifications and construction related services for the Perry Tank Roof Replacement Project for 2021. This is being done to take advantage of a possible Federal Funds Stimulus Package that may be offered for municipalities.

A motion was made by Secretary DeMatthew, seconded by Bunker, that this file be Approved

#### Adjournment

There being no further business, meeting adjourned at 5:38 p.m.

City Hall 730 Washington Ave. Racine, WI 53403 www.cityofracine.org

# Meeting Agenda – Final Waterworks Commission

Tuesday, August 18, 2020

## Approval of Minutes for the June 2020 Meeting

A motion was made by Bunker, seconded by DeMatthew, that this file be to

Approve the Minutes

Subject: Budget Expenditures for May totaling \$ 941,369.83 0469-20

Recommendation: Approve

A motion was made by Bunker, seconded by DeMatthew, that this file be Approved

#### 0440-20 Subject: Project Reports:

- A) Chicory Road Interceptor Update
- B) Facility Plan Update
- C) Site Acquisition Update
- D) West 6th Street Interceptor Update
- E) Edge of the River Update

#### Recommendation: Defer

To be discussed at next meeting as the Chairman of Office had to adjourn meeting for a loss of quorum.

A motion was made by Alder Tate II, seconded by Vice President Taft, that this file be Deferred

0473-20 Subject: Wastewater Commission Directors Insurance Policy Renewal

Recommendation: Approve

The Chief of Operations presented the insurance proposal from Atlantic Specialty Insurance Co. for a cost of\$15,940.00 for a \$2 million aggregate liability policy.

A motion was made by Lui, seconded by Bunker, that this file be Approved

0439-20

**Subject**: Communication from the Village of Caledonia with regard to peak flows

Recommendation: Defer

To be discussed at next meeting as the Chairman of Office had to adjourn meeting. Letter sent by Caledonia as the response was not sent to Commissioners for review prior to meeting.

A motion was made by DeMatthew, seconded by Bunker, that this file be Deferred

0468-20

**Subject:** Communication from the Village of Mount Pleasant with regard to peak flows

Recommendation: Defer

To be discussed at next meeting as the Chairman of Office had to adjourn meeting for a loss of quorum.

A motion was made by Vice President Taft, seconded by Alder Tate II, that this file be Deferred

#### **Closed Session**

0345-20

Subject: Discussion of the Annual Performance of the General Manager

Recommendation on June 16, 2020: Defer

Recommendation on July 21, 2020: Defer

To be discussed at next meeting as the Chairman of Office had to adjourn meeting for a loss of quorum.

A motion was made by Vice President Taft, seconded by Alder Tate II, that this file be Deferred

#### Adjournment

There not being quorum as members had to attend another meeting, Chairman adjourned meeting at 5:50 p.m.

E) Edge of the River Update

Recommendation on July 21, 2020: Defer

Recommendation on July 28, 2020: Receive and File

Project reports were given by General Manager

Received and Filed

0439-20

Subject: Communication from the Village of Caledonia with regard to peak

flows

Recommendation on July 21, 2020: Defer

Recommendation on July 28, 2020: Approve

The General Manager summarized the response received from the Village of Caledonia with regard to the letter dated June 5, 2020 from the Commission to the Village. The Village had exceeded 95% of the peak allocation during a May 2020 storm event. The Village is responsible to notify the Commission of its intended actions in accordance with the Intergovernmental Sanitary Sewer Service Agreement chapter 5.5 (c)(d).

In accordance with chapter 5.7 the Commission may authorize and accept a specific discharge in excess of a specific allocation. Upon review of the intended plan presented by Caledonia to implement safety site bypasses in accordance with their CMOM plans and satellite discharge plan issued by DNR, along with capital planning

for peak attenuation from storage basins as identified in their letter and consistent with the Racine Facilities Plan 2020, the Commission approved of their plan and methodology to stay within their allocated capacity as outlined in their response.

This action by the Commission satisfied any concerns raised by the Commission and subsequently the Commission recommended to lift the self-imposed sewer moratorium temporarily.

The commission needs to see a more definitive schedule of events outlining various milestones for progress and completion to further satisfy their concerns.

A motion was made by Bunker, seconded by DeMatthew, that this Communication be Approved. The motion PASSED by the following vote:

AYES: 4 - Lui

DeMatthew Bunker Hewitt

Friedel

**Subject:** Communication from the Village of Mount Pleasant with regard to peak flows

Recommendation on July 21, 2020: Defer

Recommendation on July 28, 2020: Defer

The General Manager summarized the response received from the Village of Mt. Pleasant with regard to the letter dated June 5, 2020 from the Commission to the Village. The Village had exceeded 95% of the peak allocation during a May 2020 storm event at several metering locations. These locations are already under an existing sewer moratorium. The Village is responsible to notify the Commission of its intended actions in accordance with the Intergovernmental Sanitary Sewer Service Agreement chapter 5.5 (c)(d).

Commissioner T.Bunker moved and commissioner K.DeMatthew seconded a motion to accept the plan presented by Mount Pleasant to lift the sewer moratorium temporarily.

In accordance with chapter 5.7 the Commission may authorize and accept a specific discharge in excess of a specific allocation. Upon further review of the intended plan presented by Mt. Pleasant the Commission is requesting a more detailed plan addressing how the Village will come into compliance with their specific allocations of meter points 11, 13, and 16.

A subsequent motion by commissioner N.Taft and seconded by commissioner J.Tate II to defer action on this item, which took precedence over the initial motion by

commissioner T.Bunker, passed.

A motion was made by Bunker, seconded by DeMatthew, that this Communication be Deferred. The motion PASSED by the following vote:

AYES: 4 - Lui

Taft

Tate II

Hewitt

NOES: 3 - DeMatthew

Bunker

Friedel EXCUSED: 6 -Mason

Spangenberg

Pucely Lynaugh Moore Beyer

#### Closed Session

DeMatthew made a motion, seconded by Bunker, to move the meeting into Closed Session at 4:54 p.m. The motion passed unanimously.

0345-20 Subject: Discussion of the Annual Performance of the General Manager

Recommendation on June 16, 2020: Defer

Recommendation on July 21, 2020: Defer

Recommendation on July 28, 2020: Approve

Discussion was held regarding the General Manager's Annual performance and compensation.

A motion was made by Hewitt, seconded by Bunker, that this Communication be Approved. The motion PASSED by the following vote:

AYES: 5 - Lui

DeMatthew

Bunker Hewitt

Friedel

NOES: 2 - Taft

Tate II

EXCUSED: 6 - Mason

Spangenberg Pucely Lynaugh

#### Adjournment

There being no further business, the meeting was adjourned at 5:57 p.m.

City Hall 730 Washington Ave. Racine, WI 53403 www.cityofracine.org

# Meeting Agenda - Final Wastewater Commission

Tuesday, August 18, 2020

4:30 PM

City Hall Annex, Room 227

#### Roll Call

## Approval of Minutes for the July 21 & 28, 2020 Meeting

0512-20 Subject: Budget Expenditures for July 2020 totaling \$1,176,693.72 0545-20 Subject: Project Reports: A) Budget Hearing - September 2, 2020 B) Household Hazardous Waste Event - August 15, 2020 C) Facility Plan Update D) Property Acquisition Update 0544-20 Subject: Bid Opening Results on Contract D-19, West 6th Street Interceptor Relocation Subject: Proposal for engineering during construction and inspection work 0522-20 on Contract D-19 from AECOM Subject: Conduct Emergency Repairs to a Utility Interceptor Sewer on 0536-20 LaSalle Street Subject: Proposal from Brown & Caldwell to evaluate operational strategies 0539-20 for Lift Station No. 2 storage to minimize downstream impacts along the interceptor systems Subject: Submission of the 2021 Proposed Operations and Maintenance 0543-20 Budget and the Proposed 2021-2025 Capital Improvement Plan Subject: Communication from the Village of Caledonia with regard to peak 0547-20 flows

#### **Closed Session**

It is the intent that the Wastewater Commission convene in closed session pursuant to Wis. Stat. Section 19.85(1)(c) for the purpose of considering employment, promotion, compensation or performance evaluation data of a utility employee. It is also the intent that open session will follow closed session.

0540-20

**Subject:** Communication from the General Manager concerning compensation for an individual

#### CALEDONIA UTILITY DISTRICT SEWER & WATER PROJECTS PROJECT SUMMARY WORKSHEET

## Caddy Vista Improvements / Lift Station

• Restoration work to fix storm damage and areas that did not take was completed August 11. Awaiting final pay request.

## **Riverbend Drive Lift Station Safety Site**

• Design of project has restarted due to Sewer Capacity Issues.

# **Lighthouse Drive Lift Station Upgrade Site**

• Project near completion.

## South Lane Sanitary Sewer

• First manhole installed on August 10<sup>th</sup>. Bounced around on several jobs with same crew. Starting August 24<sup>th</sup> crew that will stay on site to complete job.

## Rio Vista Shorewood & Stonebridge Utility Improvements

• All watermain and laterals are in and operational for the entire project. Small Storm Sewer work, Sanitary Sewer lining and Restoration of areas remains.

#### **DeBack Industrial Park Phase 3 Improvements**

• Information has been sent to the owners and the Special Assessment meeting will be held when the Village Hall can host larger public meetings.

#### **Annual Televising Program – Sanitary Sewer**

• Progress continues on the televising of this years scheduled program. Discovered a Utility that was bored through a sanitary sewer on 6 Mile Road and Novak Road. Meeting with Utilities on Monday.

## Water Impact Fee / Sewer Connection Fee Update

• The sewer capacity issues have changed the CIP for the Sewer Utility and will change the information on the Connection Fee. Update to come soon.

# **EPA Risk & Resilience Assessment and Emergency Response Plan**

• Work to start in December 2020.

## CALEDONIA UTILITY DISTRICT STORM WATER PROJECTS PROJECT SUMMARY WORKSHEET

## **Hoods Creek – Aldebaran Brushing Project**

• Awaiting dry weather and then will re-assess the needs of the Hoods Creek along the Aldebaran Subdivision

## Tanglewood Avenue Storm Sewer Project

• Storm Sewer lined. Hydrant valve installed and replaced watermain in Acacia due to road being entirely repaved. Restoration is currently being done. Looking to pave the road the week of August 31st.

## Wind Point West Subdivision Project

• Storm Sewer completed. Restoration currently being done. Patching of roads to be done the week of August 31<sup>st</sup>. Sanitary lining to begin shortly also.

## **GIS Updates**

• Project has been worked on as time allows. Will be updating servers when information is received.

#### Alcyn Drive – Drainage Complaint

• Updated plans and came up with a cost estimate. Recommend discussion on how this should be handled. QA/QC on gas main/laterals to be done but ready to share with owners.

# Douglas Avenue - OMG Ditch Project

• Met with owners in field to go over updated plans. Majority owner has now decided to allow the channel to be larger to covey larger storm events. Owners would like to see project expanded to pick up the secondary stream from Harvest Lane. Will be providing the owner with cross section necessary to handle the 100-year storm per his changed request for his approval.

#### **MEMORANDUM**

DATE: Friday, August 28, 2020

TO: Caledonia Utility District

FROM:

Anthony A. Bunkelman P.E.
Utility Director RE:

#### **BACKGROUND INFORMATION**

On August 10, beginning around 4pm and lasting until approximately 5:30pm the area experienced an extremely high intensity rain event that dropped approximately 4.5" of total rainfall. The majority of the rainfall fell in the first half hour (approximately 3.5"). This rainfall event lead to multiple flooded roads, washed out shoulders, sink holes, backed up storm sewer systems, flooded basements, sanitary sewer backups, etc.

The Caledonia Utility District is anticipating receiving another exceedance letter from the Racine Wastewater Utility. Near the end of the rainfall event (5:15pm), Central Lift Station was operating only 1 small pump (+-2800 GPM). Within minutes (5:21pm) the station was pumping with 2 large pumps (+-8500 GPM) and the wet well was rising at over an inch per minute. With the wetwell rising, the sanitary sewer manholes on Valley Trail and 4 Mile Road were observed and both were found to be exfiltrating blended sanitary sewer into the Birch Creek. Upon viewing this, discussions were had with President Dobbs about the proximity of basements if the wet well were to continue to rise. The decision was made to operate all 3 large pumps at Central in an attempt to prevent basement backups. At 6:15pm all 3 large pumps began pumping (+-10,500 GPM) and ran until the next morning. With the 3 large pumps running the wetwell was then holding steady.

Around 6:30pm a call came in for a basement backup of sanitary sewer. Upon arrival, several of the homes on the East end of Catherine Drive had backups of sanitary sewer in their basements. Measurements were taken on the effluent levels in the manholes.

Keith Haas from the Racine Wastewater Utility was contacted around 7:00pm to find out the condition at the wastewater treatment plant and to inform him that Caledonia was indeed going to have an exceedance.

At 7:40pm the 6" trash pump was set up in a sanitary manhole upstream of the wet well and was bypassed to the Birch Creek as well. With the trash pump and the 3 large pumps going at Central the station was pumping approximately +-12,000 GPM. With the 2 manholes exfiltrating as well the wetwell started to go down slowly.

The wetwell was monitored consistently until approximately 12:30am on August 11th. At this time the wetwell elevation was at an acceptable level and the 3 large pumps could maintain the elevation without bypassing and having exfiltration out of manholes.

With the bypass pump running for 4 hours 35 minutes and the manholes exfiltrating for approximately 6 hours 30 minutes it was estimated that 1,635,080 gallons of blended sanitary sewer was discharged to the Birch Creek. These SSO's were reported to the Wisconsin DNR as required.

On August 11<sup>th</sup> and for at least a week after the event, the Utility has been receiving calls about basement backups. To date we have been informed of 17 basement backups.

Also starting on August 11<sup>th</sup> and continuing to date, the Utility has been receiving numerous drainage complaints. Some of the areas that we will be reviewing further are located in Country View Estates, North Meadows Subdivision, areas along the Klema Ditch, Westview Village Subdivision and Majestic Manor. Some of the issues occurred due to the loss of power and sump pumps not working. Others were due to the intensity of the rainfall being over the design capacity of the system. The Engineering Department is working through most of the drainage complaints and the Utility will be reviewing the major issues as identified above.

#### MEMORANDUM

DATE: Thursday, August 27, 2020

TO: Caledonia Utility District

Anthony A. Bunkelman P.E. Multun Bruhelm FROM:

RE: Wind Dale & Wind Point West Storm Water Utility Improvements –

Change Order #2

#### BACKGROUND INFORMATION

During the Wind Point West portion of the Project, it was discovered that the water laterals for most of the homes are not at the typical 6' of depth. The water laterals varied from 4' to 6' in depth. To rectify the situation in the storm sewer trenches, it was agreed that the laterals either be insulated or offset to obtain the typical depth, depending on the existing depth.

In Change Order #1, 2 bid items were added to the contract documents. 1 for offsetting laterals that have already had the storm sewer installed and 1 for offsetting laterals that do not have the storm sewer installed. In Change Order #1 there were 22 offsets. Change Order #2 adds 8 more lateral offsets for a total of \$15,792.00.

On the Wind Dale portion of the project, it was determined that the watermain in Acacia be replaced prior to the road being repaved. The watermain was proposed to be replaced with the North Kremer Watermain Replacement project next year but Acacia was proposed to be entirely repaved with the Storm Sewer Project so instead of patching it next year it will be a new road without patches. This work was done for an agreed upon cost of \$84,699.30.

The cost of Change Order #2 is \$100,491.30 or 6.42% of the original contract. The total cost of change orders to date for this project is \$154,182.30. The original contract for this project was \$1,566,307.81. The percentage change for all change orders so far for the project is 9.8%.

It is recommended that Change Order #2 be approved.

#### RECOMMENDATION

Move to approve Change Order #2 for the Wind Dale & Wind Point West Storm Water Utility Improvements Project.

**GRAND TOTAL** \$84,699.30

#### NOTES:

- 1) CONCRETE ITEMS TO BE BILLED BY THE UNIT PRICE PROVIDED AT AS-BUILT QUANTITIES
- 2) PROPOSAL IS BASED ON A TWO WEEK EXTENSION BEING GRANTED ON THE SOUTH LANE SANITARY SEWER PROJECT & THE WIND DALE & WIND POINT WEST PROJECTS.
- 3) PROPOSAL DOES \*\*\*NOT\*\*\* INCLUDE SLURRY IN ANY LOCATIONS

#### **MEMORANDUM**

DATE: Thursday, August 27, 2020

TO: Caledonia Utility District

Anthony A. Bunkelman P.E.

Utility Director FROM:

RE: Alcyn Drive Project -Update

#### **BACKGROUND INFORMATION**

The Alcyn Drive Project started as a Drainage Complaint from Mr. John Urban of 4830 Alcyn Drive. He made the complaint because he is interested in repaving his driveway. At the time the Utility District agreed to survey the road ditch to see what could be done.

As part of the survey, the road ditch was inspected for proper pitch, ground condition, evidence of standing water and evidence of healthy growing vegetation. Although the ditch does not appear to have the proper pitch and culverts not set at the proper elevation, it was discovered that there was no evidence of standing water, the ground was mostly sand, and the vegetation in the road ditch was very healthy. It was also discovered that the majority of the owners have installed a tile system in the centerline of the road ditch. With the tiles installed the road ditch the tiles were adequately handling the majority of storm events. Unfortunately for the large rain events, water will stand because the 4" corrugated tiles are not sized to handle those size of events. The runoff does drain away relatively quickly due to the sandy soil.

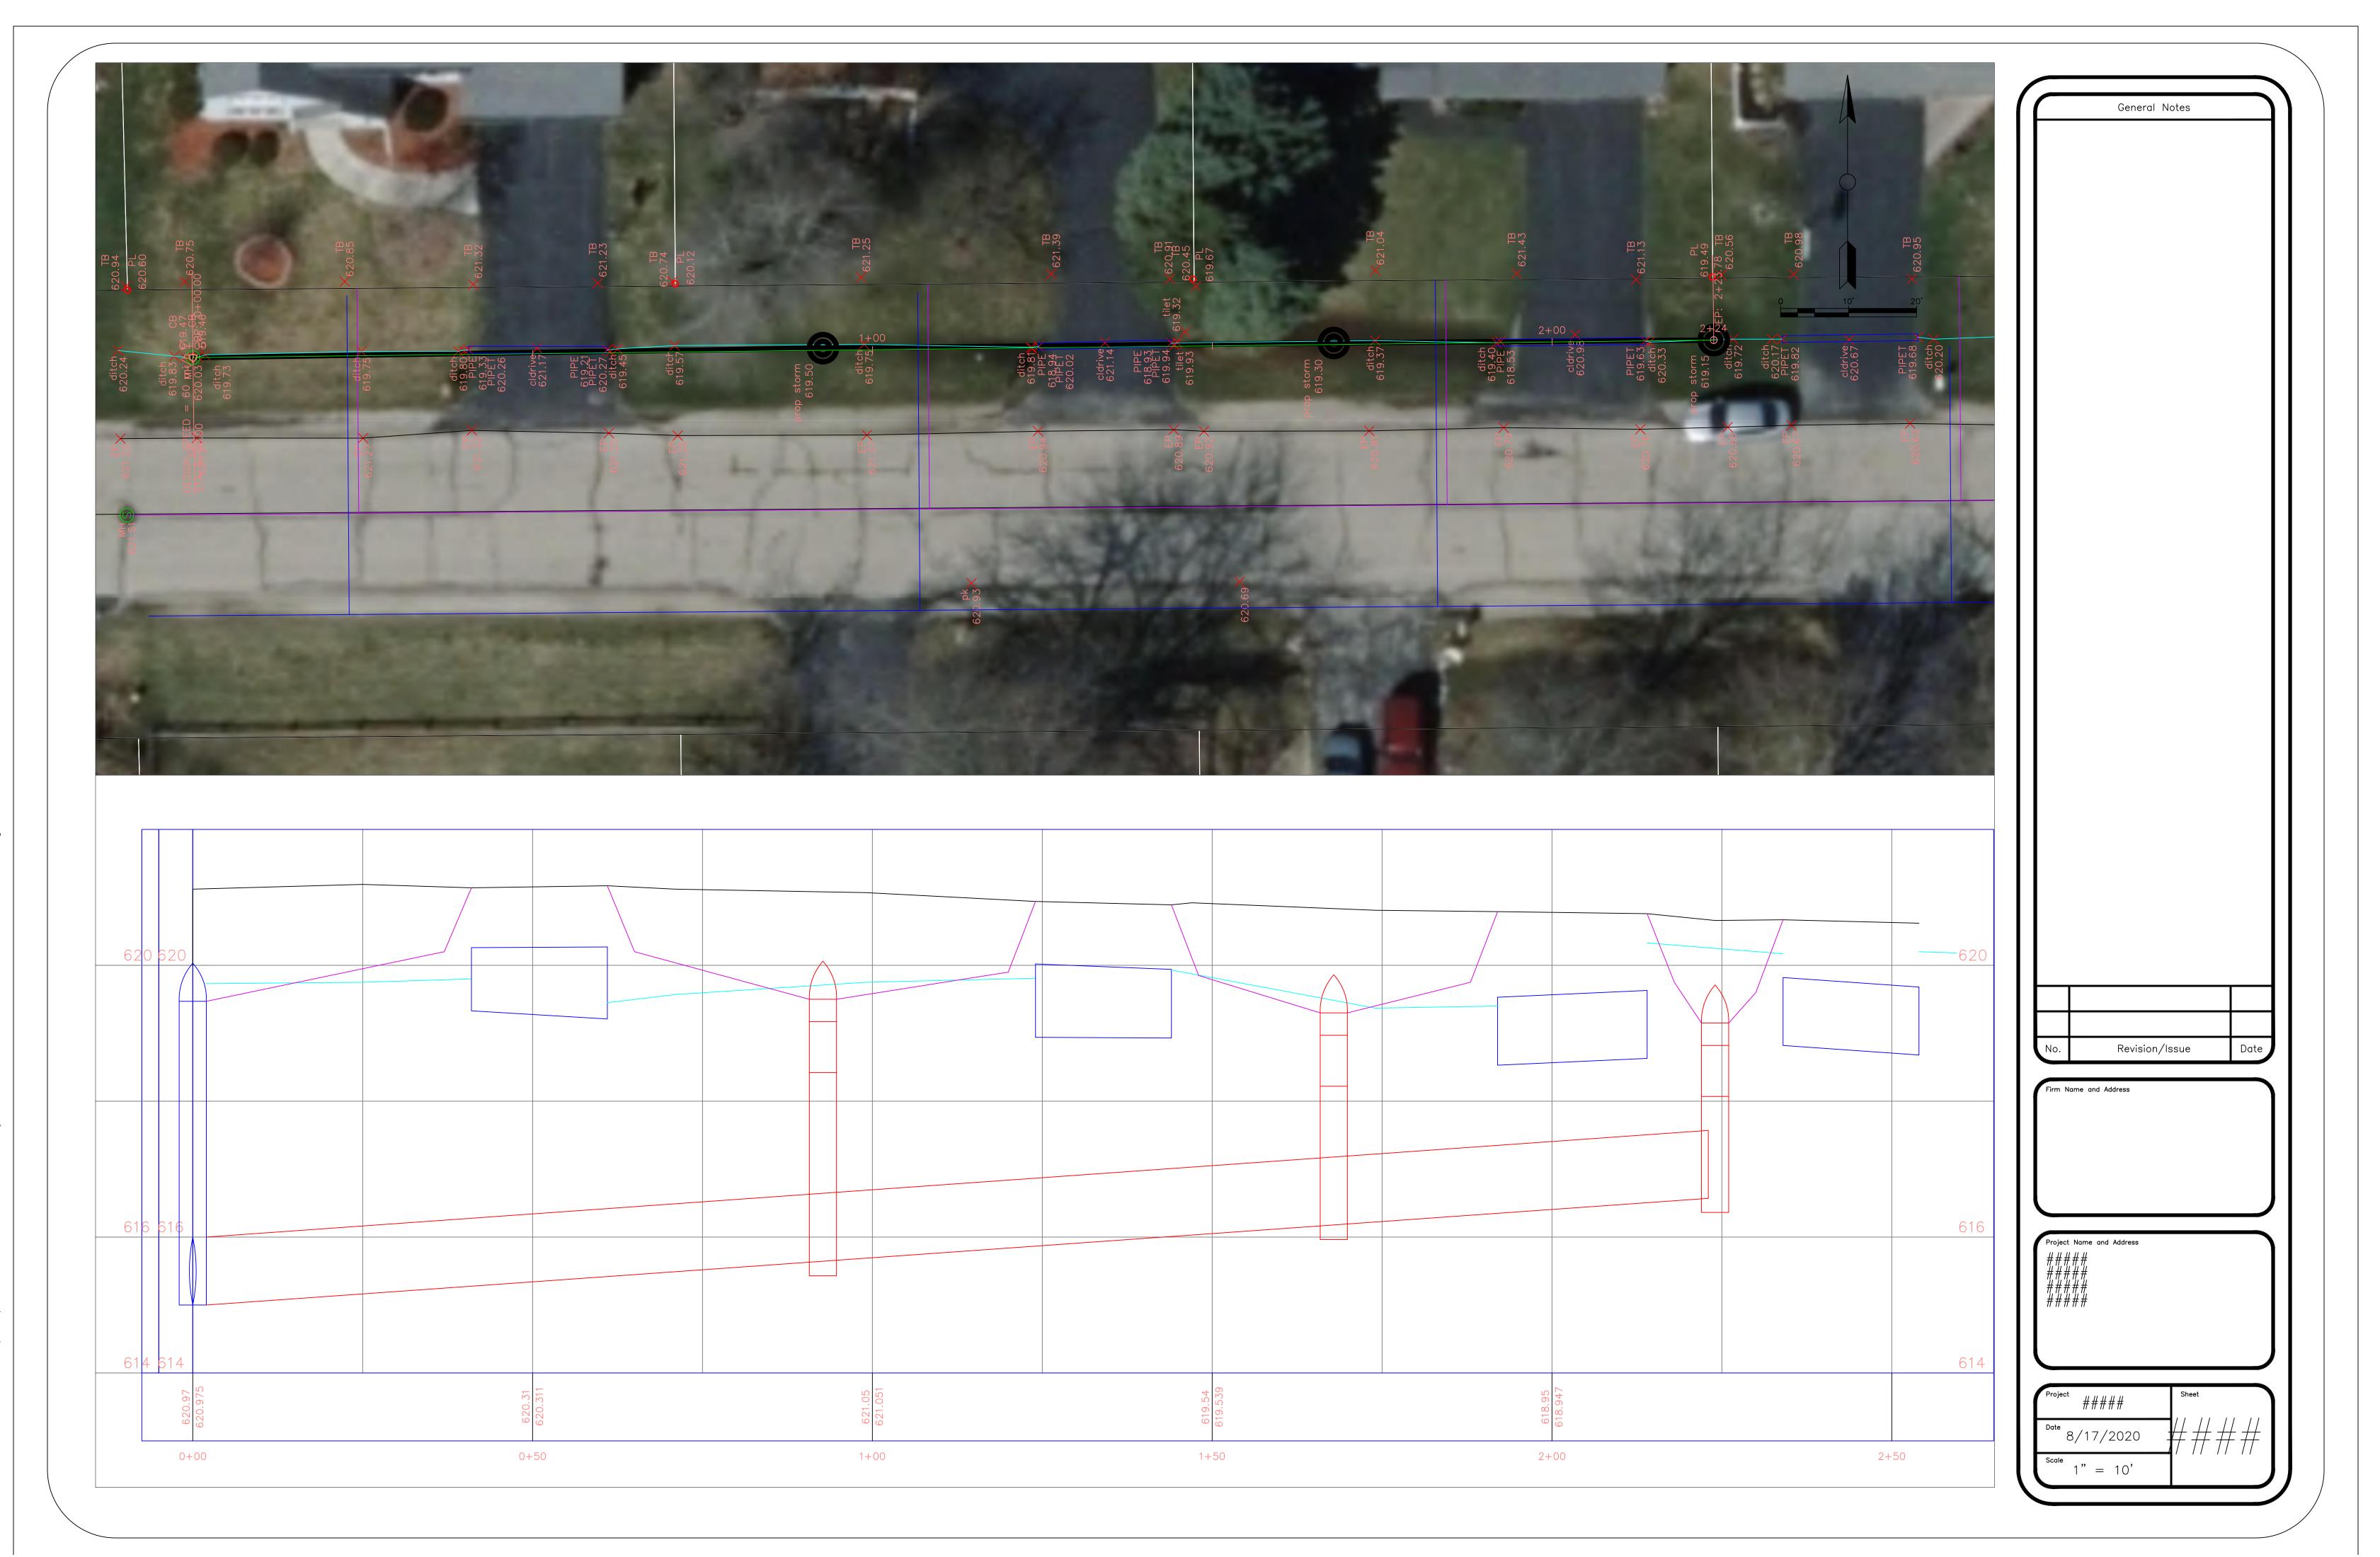

Initially, the project was proposed as a culvert replacement and ditch grading project. This could require the homeowners to pay 50% of the cost to replace the culverts. Approximately \$1,300 per residence (No Asphalt Replacement). When a meeting with the residents was held the residents figured that with asphalt driveways, they were looking at about \$4,000 each. With that in mind they asked to have a storm sewer option provided to see if that would be close to the same cost.

A storm sewer option was designed, but in the design, it would only benefit 3 of the owners. The existing storm sewer is not deep enough to run the entire length. The remaining properties, if they desired could replace their driveway culverts as previously designed. Although the storm sewer option does correct the issue for Mr. Urban, whom filed the initial complaint, the fewer residents that are benefitted raises the cost for the benefitted properties. A cost estimate for the project was put together using the latest bid prices. The estimate for the work is approximately \$56,500. If the project was special assessed at 50% for the 3 properties, each property would be at approximately \$9,400.00. That cost would be steep and higher than any assessments that the Storm Water Utility has done previously. I also have a local contractor looking at the plans to see what he could perform the work for. If a lower price can be obtained to perform the work that would reduce the special assessment. Based on some rough math and discussion with Mr. Urban, I do not believe that the special assessment for storm sewer will have support from the owners. Which leads us back to the culvert replacement option. It could be determined that the

Utility District perform the project with the Highway Department. Based on rough numbers we would be looking at around or under \$20,000 for all 5 culverts that need to be replaced.

At this time there is no action required by the Utility District, but I would like to get the number from the local contractor, see if the number is low enough, look at direct purchase of the materials in an attempt to attempt to save as much as possible. Once those numbers are gathered meet with the owners to see if they are still interested in the project.

Soon we should have the information to see if the project would be performed as a storm sewer project, a culvert replacement project, or no project at all.
