Re: Sole Source Request - Lions Digital Fire Extinguisher Trainer

---

### **BACKGROUND INFORMATION**

Gerald and Helen Kocourek approached the Caledonia Fire Department with an inquiry about equipment needs and their intentions of donating to the fire department in the memory of Helen's brother who passed away unexpectedly.

One of the equipment needs identified by the Caledonia Fire Department was a fire extinguisher training prop that could be utilized year-round, without weather concerns, to supplement individuals' and businesses' Emergency Action Plans. Only one manufacturer of this type of equipment produces a device that creates a stressful environment using smoke, pull stations, horn/strobe lights, a digital fire, a weighted fire extinguisher, and a mock 911 phone with RCCC recordings.

The quoted price is from Dinges Fire for the Lions BullsEye Digital Fire Extinguisher Training System, the sole manufacturer. Dinges Fire is an authorized seller of this product in our geographic area.

### **RECOMMENDATION**

The Fire Department requests an exemption from village policy and *Village Ordinance 2-4-26 Expenditure Policy* to purchase the following:

- (1) BullsEye Digital Extinguisher Trainer V3
- (1) Transport Case for attack and Bullseye
- (1) BullsEye Dry Chem Digital Laser Extinguisher.
- (1) Transport case for Extinguisher
- (1) RACE Station Base Package
- (1) Smoke Generator with Battery
- (1) Transport Case for Smoke Generator
- (1) Liquid Smoke for Generator

Ordinance 2-4-26 grants an exception to the requirement for three competitive bids under subsection (3)(c)(ii) and permits a sole source or specific brand exemption. The funds for this capital item were donated by Gerald and Helen Kocourek specifically for the purchase of the BullsEye Elite product, quote 77220.

# DIGITAL FIRE EXTINGUISHER

A PROPOSAL TO:

**GERALD AND HELEN KOCOUREK**

MARCH 4, 2025

# DIGITAL FIRE EXTINGUISHER

The digital fire extinguisher project aims to teach the community how and when to use a fire extinguisher to save lives and property following NFPA 1370.

In addition, the project will create a community partnership by offering classes to businesses and others in addition to at-risk groups such as older adults. Studies have found that when an extinguisher is used in the developing phase of a fire, it is 80% effective at putting the fire out.

The objective is to instruct the audience on the RACE (remove/rescue, alert/alarm, confine/contain, and extinguish/evacuate) fire response plan. The project also provides a sounding board to speak about fire safety in the home and workplace where appropriate. The portable indoor digital fire extinguisher training equipment gives our

department an advantage in helping businesses and the community develop a specific fire response plan in their facility/home. The goal is to teach 100 people a year how to use a fire extinguisher to reduce the more than \$110,000 loss annually contributed to fires that could be controlled with a fire extinguisher.

## Non-residential fires have shown a 22%

increase (United States, 2022) from 2011 to 2020, for a total of 103,400 fires reported. The dollar loss from these fires is nearly \$329,000,000 annually or \$3.3 billion over the last ten years. The incidents of fires and loss are trending upward every year. Riots in 2020 can account for a spike in the dollar and the number of fires reported; however, despite 2020, the trends still show an increase in prior years, predicting 2021 and beyond will also have an upward trend in incidents and loss.

The number one cause of non-residential fires is cooking, followed by intentional, other unintentional, and careless fires (United States, 2022). Electrical causes accounted for 6,800 fires in 2020 but had the third-highest dollar loss at \$425 million after intentional fires at \$536 million. Unintentional and careless fires account for the highest dollar loss in 2020 at \$539 million.

## Live demonstrations

props, such as a digital extinguisher will provide education, confidence, and reinforcement of fire safety practices. Although OSHA requires education annually, how often does the employer comply with the requirement? Fire-based extinguisher training offered by experts that put out fires leads to enhanced community relationships, compliance with extinguisher training, and a segue to fire prevention awareness in the workplace and home.

### R.A.C.E. STATION

## Go beyond basic fire extinguisher training

HELPS REINFORCE THE RESCUE, ALERT,  
CONFINE, EXTINGUISH METHOD TO BUILD  
ON-THE-SCENE FIRE RESPONSIVENESS.

The LION R.A.C.E. Station recreates the stressful environment of an actual emergency. Trainees see simulated flames and the strobe light flash, hear the horn and fire sounds, and see the training smoke. Upon discovery of a simulated fire, trainees can put R.A.C.E. (Rescue, Alert, Confine, Extinguish) to the test by alerting with the Emergency Phone and/or pull station before attempting to extinguish the fire.

#### PUT R.A.C.E. TO THE TEST.

When faced with a number of decisions to make before the fire grows out of control, R.A.C.E. training helps them respond quickly and accurately. Arm your community with the skills to tackle incipient stage fire emergencies, saving lives, property, and fire department resource.

#### A SEAMLESS TRAINING EXPERIENCE

The R.A.C.E. Station communicates wirelessly with the BullsEye™ Digital Fire Extinguisher Training System for a seamless training experience. Customize

training scenarios to each location that you train in and their specific response plan. The R.A.C.E. Station can also be used with other LION training tools or as a standalone unit.

#### TAKE YOUR TRAINING ANYWHERE.

The R.A.C.E. Station's collapsible design makes it easy to pop together and start training. Each prop is lightweight enough for one person to set up and dismantle. Train when it's convenient for you. Train where emergencies may really occur—the break room, shop floor, or your local school.

Place each respective prop near the actual emergency equipment in your facility because distance isn't an issue. Each prop uses Bluetooth 5 technology to create a mesh network that enables communication between props up to 150 meters in distance. With Bluetooth 5 mesh network, you can even daisy chain props together for greater distances.

On behalf of the Caledonia Fire Department, I want to extend our heartfelt gratitude for considering us for a donation. Your willingness to support our mission of public safety truly means a lot to us and the community.

Your potential contribution will play a crucial role in teaching the public how to use a fire extinguisher and bringing awareness of fire safety in the home and workplace.
